

D-VHS RECORDER/PLAYER, PRO-HD PLAYER SR-VD400US

Distribution of true High Definition programming has never been simpler and more economical! JVC's SR-VD400US plays all variations of D-VHS including encrypted recordings made on the SR-VDA300, password protected and non-password protected recordings, standard D-VHS and D-Theater.

PRO-HD MASTERING RECORDER SR-VDA300US

Now you can master Pro-HD recordings using JVC's "pro-scramble" content protection with this advanced 25 mbps bitstream recorder. Ideal for digital dailies and economical distribution of high definition recordings. ASI input is compatible with leading MPEG-2 encoders.

HD MPEG-2 ENCODER DM-JV600U

This high quality encoder allows you to create an MPEG-2 bitstream from a high definition source. It's ideal for mastering D-VHS recordings, as well as digital high definition terrestrial and satellite broadcasting.

JVC High Definition Display Products

3-CHIP D-ILA® PROJECTOR DLA-HX1

The finest WideScreen projector in its class, the DLA-HX1 features three D-ILA panels for native 1400 x 788 resolution.

17" AND 19" HDTV MONITOR DT-V190CGU - DT-V1700CGU

This is a true HDTV monitor that offers excellent value and is ideally suited for production, electronic cinematography and broadcast applications.

42" AND 50" PLASMA MONITORS

JVC's original video processing technology gives these displays the edge over competing products.
