Live stream of sports, concerts, special events, corporate meetings, worship services, and more.
2. Easy Setup Facebook Live
Menu Setting
(1) Timeline
• When you use “Timeline” on Profile/Pages, you can use “Facebook Live” menu also.
• Enter account digit code (obtained separately).
• Login will be active for 60 days.

(2) Event
• When you use “Event” on Profile/Pages, please use “RTMPS” protocol.

Streaming
• Streaming protocol: RTMPS
• Resolution: 1280 x 720 or 640 x 360
• Frame rate: 30p/25p
• Bit rate: 3Mbps or below
• Requires an optional adapter for live streaming (Ethernet, Wireless LAN, Cellular)
What to do if RTMP/RTMPS Stream Key exceeds 63 characters?

Model
- GY-HM850 • GY-HM890 • KY-PZ100 • GY-LS300 • GY-HM200 • GY-HM250 • GY-HM650 • GY-HM660

191 characters max
63 characters max
*127 characters on HC900 and HC500/550.

How to enter the Live Stream credentials if the Stream Key exceeds 63 characters?

Solution is based on the fact that URL and Stream Key are both sent to the server in one string separated by “/”.
Credentials are broken into two fields only for customers convenience.

Example:
URL: rtmp://myserver.com
Stream Key: 1234567890

Solution:
Use Note Pad to prepare credentials prior to pasting into the camera web interface. Carefully “cut” characters all of the Stream Key and paste into the URL after “/”.

URL: rtmp://my.server.stream
Stream Key: 1234567890

rtmp://myserver.com/1234567890

Add “/”
"Paste"

URL: rtmp://my.server.stream/1234567890
Stream Key: *(None)*
