The Color Monitor that Stands Out from the Crowd — Unbelievable Picture Quality with Hyper Surround Sound!

Now there is a big-screen color Monitor/receiver that sets new standards for picture and sound quality, while offering the convenience and the versatility available only from JVC. The TM-2799SU monitor has a 27-inch Full-Square screen. With its winning combination of big-screen presence and powerful features, it's ideal for applications ranging from education to exhibitions. Hyper Surround Sound and front firing speakers create a three-dimensional sound field to deliver a sound experience that matches the sensational picture quality of the stylishly designed TM-2799SU. But, there's more! A Closed Caption Decoder with text mode opens up a host of possibilities in applications including CATV, teletext, education, and exhibitions. And, with JVC's handy MASTER COMMAND menu-driven remote control unit, you are the master of JVC's latest high-performance color monitor and receiver.
