The Perfect Experience / —

NETWORK VIDEO RECORDER [9ch/16ch]

VR-N900U
VR-N1600U/E**Works with Windows 7 !! Ver. 5.1**

New Features

- **Master / Slave configuration by VR-N900/1600**

Multiple NVRs can be configured as one integrated Master/Slave system without using PC .

*No need for extra Software license or any camera licenses, just put the NVR as a Master on the same network. JVC NVR, VR-N900 and VR-N1600 ensure your larger surveillance systems under same easy-to-use concept as before. (*1)*

- **System status monitoring by SNMP**

*Checking the camera connection status , CPU occupation, Recording status, NVR viewers, and more by using general SNMP Manager software. (*2)*

- **Preinstalled camera drivers**

VN-X35U, VN-V685U, VN-V686B series, VN-V225 series, VN-X235 series and AXIS209FD

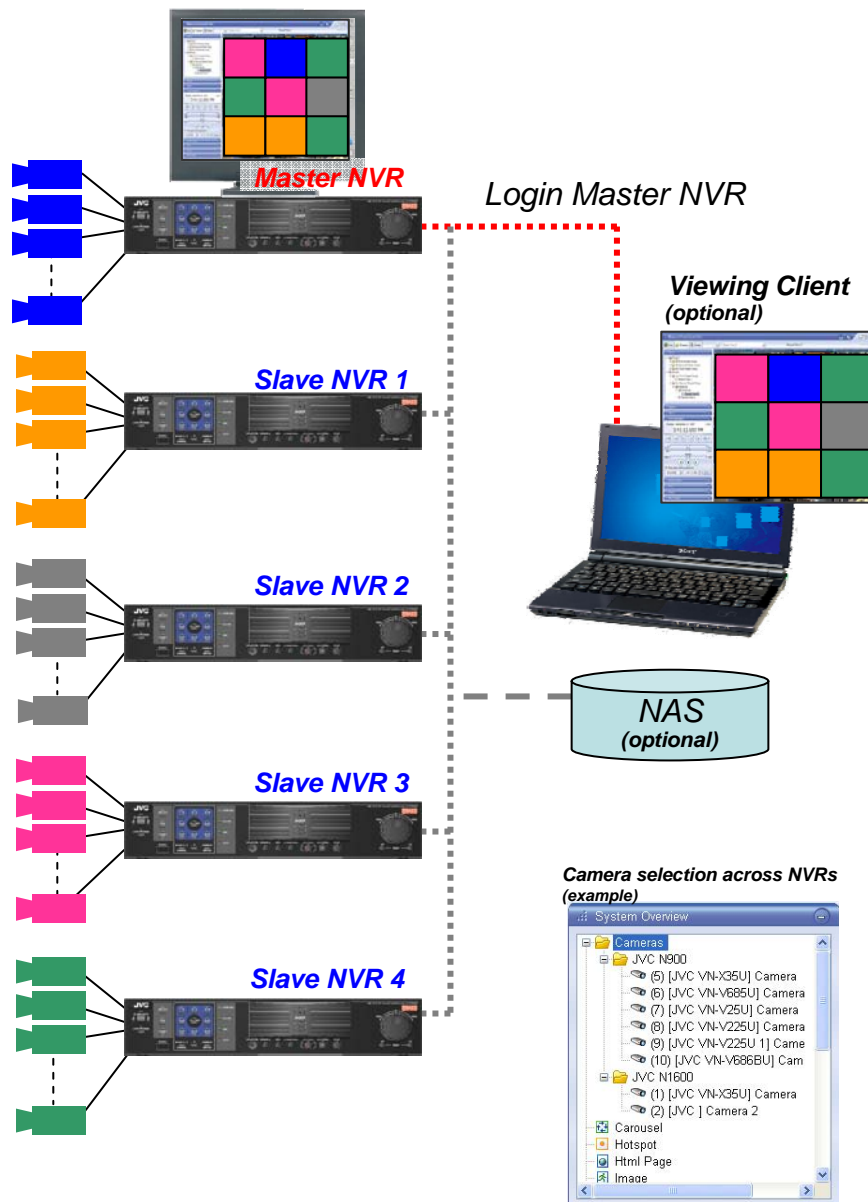

- **DDNS Host name and HDD meter supported**

- **Setting menu improvement**

Simple and Cost effective integrated monitoring system

Not necessary extra licenses or master PC. Viewer clients can see images from all NVRs mixed at one screen. Each NVR records the images locally or to the network attached storage.

NVR Master / Slave System configuration

Tested Devices

[JVC]

- VN-C20U/215 series
- VN-C625U/655U(B)
- VN-V25U/26U/X35U
- VN-V225/235 series
- VN-V685/686 series
- VN-E4U/E

[Verint]

- S1700/S1704/S1708_SSL
- S1900/S2700e
- S2700e/VR

[AXIS]

- 206/207/211/211A
- 216FD/209FD
- 207W/212/213/214

Over 650 devices can be connected by installing the device driver provided by Milestone. Auto detection by NVR and guarantee of performance are applied to the devices on this list only.

NOTE:

*1 VR-N900 and VR-N1600 can be mixed in the Master/Slave system, and either model can run as a Master or Slave, but to get the official technical support from the factory, the number of Slave NVR per 1 Master NVR should be up to 4 and total number of the camera per 1 Master/Slave system should be up to 80, which is currently the maximum configuration at the factory testing. And when configuring NVR Master/Slave system, all NVR version has to be same, and no Milestone XProtect Enterprise Slave is supported by the Master NVR. Lastly the Master NVR can not be specified as a Slave from another Master.

*2 SNMP Manager software is not included.

* NVR Ver1.5 or later version can be updated to Ver5.1 using provided update program. In case of Ver1.4 or earlier, please update to Ver1.5 first then update to Ver5.1.
