ARCHITECTS' AND ENGINEERS' BID SPECIFICATION

The industrial-grade time-lapse field recorder (NTSC) shall be a JVC Model SR-9090U or equivalent and shall not be a modified consumer unit. The time-lapse recorder shall be VHS compatible.

The unit shall have standard 2-hour and 6-hour VHS recording and provide 12-hour and 24-hour time-lapse (linear slow) recording. Another feature shall be audio recording in both time-lapse modes. In addition to 24-hour and 40-hour time-lapse recording, Event Recording shall be possible, with 8-second sections recorded every 4 minutes in 3d1 mode (2-hour) and with 22-second sections recorded every 4 minutes in 3d2 mode (6-hour). This shall allow recording over a 3-day period. Even with power switched off, or when the unit is set to the Stop position, Emergency Recording shall automatically start as soon as an external alarm signal is received. If an alarm signal is received during Time-Lapse or Event Recording, the unit shall automatically switch to Alarm Recording in the previously set mode (2- or 6-hour). The unit itself shall also provide an alarm. The Alarm Search/Recall feature shall find the latest of Alarm Recording, and switch to Pause. Alarm Recall shall allow you to check the date and time of the last six alarms recorded by using the on-screen display. When the Summer Time button is pressed, the time shall advance by 1 hour, and when pressed again shall return to normal. Additional features shall include: Auto Alarm Reset, Daily and Weekly Timer Recording, External Timer Recording, Auto Repeat Recording/Auto Rewind, 1-Week Timer Backup, Built-in Time-Date Generator, Optional Wired Remote Control, Dual Mode Record Lock Function, LCD with Back Light, Hour Meter, Camera Switching Output, Auto Off Output and Tape End Output.

Horizontal resolution (VHS-2-hour mode) shall be 400 lines. The unit shall feature a 4-video head system and high-speed FF/REW (Less than 3 min./NV-T120 tape). The time-lapse field recorder shall feature Auto Head Cleaning, Noiseless Still and Forward/Reverse Field Advance. The body shall be no more than 14-3/16" wide. The power source shall be 120V AC — 50/60Hz. The unit shall be UL listed.
