Audio Guidance System

XA-GP1BK Portable ROM Player

- Easy operation with large LCD and large buttons
- Three different ways to initiate guide playback — Guide playback can be initiated automatically, by manual pointing using infrared detection, or by direct numeric input
- Skip key to advance or reverse the guide narrative number
- Easy-to-understand slow-speed playback
- Flash memory card for long-time recording
- One-touch switching between up to 9 languages
- Large-capacity lithium battery (when fully charged (3 hours), approx. 12-hour playback is possible)
- 1,000-message recording on one memory card
- Message playback count
- Card version display

Producing a program on a flash memory card
1) Edit the narration, background music and sound effects in a studio. Create a master MD or DAT.
2) Compress to the audio source of the master MD or DAT. Copy data to a flash memory card (master).
3) Copy the contents to as many memory cards as required.

Options
- User supplied COMPACT FLASH flash memory card: 2/4/10/ 15/20/30/48 MB
- DH247 Earphone: (ear-hanging type)
- BN-R368 Rechargeable battery: (supplementary)
