Visual Network System

**V.NETWORKS**

VN-C1U
(Fixed orientation)

VN-C2U
(Integrated pan/tilt)

■ **The V.NETWORKS VN-C2U is the world's smallest Ethernet compliant Visual Network System with a built-in multi-angle Pan/Tilt, allowing discreet placement in tight spaces while retaining mobility and wide field of view**

■ **V.NETWORKS can be controlled remotely and easily from the next room via an Ethernet network, or across the country via the telephone line, using your PC and JVC's exclusive viewer/controller software (included)**

■ **Direct Network Connectivity**
Just connect V.NETWORKS to the existing Ethernet using a 10Base-T connection, and viewing digital images on the network is very easy, quick and cost-effective.

■ **Viewer/Controller software (included)**
JVC's exclusive viewer/controller software (ready for Windows 95/98) allows remote control of Multi-angle Pan/Tilt and other V.NETWORKS functions as well as monitor JPEG images on the PC display.

■ **Multi-angle Pan/Tilt Built-in**
Small and fast Pan/Tilt function (160°/sec) also features multi-angle-direction-action allowing discreet placement in tight spaces while retaining mobility and wide field of view.

■ **Easy Remote Monitoring**
Using phone lines, ISDN or exclusive lines, V.NETWORKS is ideal solution for remote monitoring and viewing.

■ **Full Digital Signal Processing**
The latest CMOS Image sensor digital output goes directly to the JPEG hardware compression and translates into network packet signals with the IEEE 802.3, world standard making it possible to capture, monitor and distribute full digital images anywhere on the network, and easily manipulate them using existing image processing software in the market.
Fast multi-angle Pan/Tilt built in

Viewer/controller software (included)

Easy installation and use
